Mr. Thomas P. Denicolo
Bella Brothers Construction Inc.
6533 Rising Sun Avenue
Philadelphia, PA 19111

Dear Mr. Denicolo:

I'd like to take this opportunity to thank you for a job well done. When my wife and I decided that we needed a stair chair for the steps leading to our basement, we never realized that it would entail knocking out the wall and widening the pathway. My wife was truly concerned about this. We also had the rear wall in the basement redone. It was a big job and I am quite pleased with the results.

Right from the start, your profession mannerism put us at ease. All of the workers involved were extremely courteous and very accommodating. They were very careful and they worked diligently. The workers kept everything clean and made sure that the furniture and rugs were covered. The job took about a week and the whole team treated us with respect. The operation ran so smoothly.

The basement wall looks so nice and the new wall that you created in our living room looks beautiful. My son-in-law does commercial painting and he commented on the masonry work. He said that it was done to perfection. I would highly recommend your company to other potential customers who are looking to do any type of remodeling. We are very happy with the outcome. If I need any more work in the future, I know who to call.

Sincerely,

Frank J. Thompson
